

**Anita Sharma**

**Member, Research Team**

**Home Town: Dehra Doon, Uttarakhand**

**Work Interests:** Work Interests: My prime area of interest is to work in the field of environment particularly environmental management. Looking at the magnitude of environment related problems today, I believe that we should focus more on preventing and finding practical solutions to these myriad problems rather than only digging them out. At PSI I am working with the Environmental Quality Monitoring Group.

**Personal Interests:** I like reading about spirituality and human mind. Plight of the destitute people disturbs me a lot. I love watching nature and listening to old Bollywood and western songs.
